About Me

Adaptable developer with **3 years** of web development experience, who owns several open-source projects and a proven knowledge of **front-end** and **back-end** technologies.

Skills

I am experienced in **React**, **NextJS**, **JavaScript**, **Node**. I also have experience using different database technologies (relational and non-relational).

Experience

February 2023 - Present

Dandelion - *Front-end Developer*

- Developed a responsive web application designed to deliver an intuitive user experience
- Utilized **NextJS** for building reusable components, enhancing modularity and code maintainability.
- Employed **responsive design** principles to ensure compatibility across various devices and screen sizes.
- **API Integration**: Connected to RESTful APIs for dynamic data fetching, enabling real-time updates
- Integrated **dynamic content rendering** to provide real-time updates and interactions.

October 2022 - February 2023

CardGame- *Front-end Developer*

- Developed a dynamic web-based **NextJS** card game application that showcases interactive gameplay and user engagement. The project features a clean, responsive design built with modern web technologies, using Storyblok for the database
- Optimized layout for desktop and mobile devices, utilizing media queries for adaptability.
- Designed an intuitive and visually appealing interface using **NextJS**, **CSS**, enhancing user experience.

April 2021 - October 2022

RecipesFinder - *Front-end Developer*

- Developed a responsive web application showcasing modern **UI/UX** design principles.
- Utilized **NextJS** for building reusable components and managing application state efficiently.
- Employed CSS and styled-components for modular styling, ensuring a clean and maintainable codebase while achieving a modern and visually appealing design.
